September 10, 2025

Dear Parents/Guardians:

As you may be aware, the provincial Teachers' Employer Bargaining Association (TEBA) remains in contract negotiations with the Alberta Teachers' Association (ATA). These negotiations include all teachers and school administrators in Public, Catholic, and Francophone school divisions across Alberta.

Today, the ATA has announced that if a negotiated settlement is not reached through this process, job action will commence on Monday, October 6, 2025. It is not known at this time what this may involve, but it could include a province-wide teachers' strike.

It is important to note that, though the ATA has communicated plans for job action commencing October 6, 2025, negotiations can be ongoing in the meantime. At Wolf Creek Public Schools, we are hopeful the bargaining process will lead to an agreeable settlement before this deadline.

As negotiations continue, we remain committed to informing our school communities of any updates when available.

We value the important role of our teachers and administrators, and support staff in our schools and school communities. We also want to thank our families for their trust and patience during this time.

Sincerely,

Tim De Ruyck
Superintendent
Wolf Creek Public Schools
